

**PROPOSED CRITERIA FOR TECHNOLOGY TRANSFER
BETWEEN RCA-AFRA-ARCAL**

Definition

Technology transfer should be taken to refer to the transfer of technology or joint project development or implementation between the regions. The proposed criteria below are to be used as guide by the RCA in determining the technology to be transferred to or accepted from the other regions.

For transfer to other regions

1. Contributes to solving common problems or concerns
2. Contributes to the harmonization or standardization of procedures, protocols, practices
3. Contributes to the progress/advancement of the area of endeavor/ technology
4. Synergies with, or complements, existing projects/activities
5. Technology is already well-developed in the region with ready capability
6. Contributes towards technological self-reliance and sustainability
7. High probability of success
8. High possibility for TCDC implementation
9. Contributes towards enhancement of regional capability
10. Does not jeopardize/ compromise the need of RCA Member States
11. Non-commercial or does not give rise to commercial competition
