

[Other Matters 6. 2]

Composition of the Selection Committee for Selecting the next RCARO Director

The term of present Director, RCARO will complete in April 2008. Therefore, the vacancy notice should be announced latest in October 2007. In order to meet the time frame for selecting the next Director, it is needed to revisit the composition of the current Selection Committee.

The Selection Committee to select the present Dir-RCARO was composed in March 2004 and later endorsed by the NRM in April 2004 (26th NRM in PAK). They are;

- Dr A K Anand (IND)
- Dr John F Easey (AUL)
- Dr Bernido Corazon (PHI)
- Director General, Atomic Energy Bureau, MOST, ROK representing the host country of RCARO
- RCA Focal Person on behalf of IAEA

It is, therefore, needed to compose new Selection Committee for the next Dir.-RCARO since the Selection Committee was composed only for selection of the first Dir-RCARO in relation with the full operation of the RCARO. In addition, since the related guidelines (Guidelines on the Operation of the Selection Committee and Guidelines on the Selection and Appointment of a Director, RCARO) has been adopted in September 2003 aiming only at the selection of the first Director of RCARO, they should be revisited in order to reflect changes in the composition of the Standing Advisory Committee and to set forth general guidelines.

Proposed Action

The SAC is hoped to give advice on how to constitute the new Selection Committee members to select the next Director of RCARO or to newly designate.

Attachment 14: Guidelines on the Operation of the Selection Committee
