Room #510 main building
658-91 Haemaji-ro, Seosaeng-myeon, Ulju-gun, Ulsan 45014 Republic of Korea

EDUCATION PROGRAMME

Department of Energy Policy & Engineering

Introduction

Energy policy is a complex progress, where economics, environmental protection, and sustainability issues are interconnected. The Department of Energy Policy and Engineering offers a curriculum that builds capability to understand and solve problems which can arise from such a complex progress in an integrated way. The program is designed to foster global-level energy policy decision makers and executives who understand both theory and practice through lectures, practical training, and sharing experience with colleague students from various fields, including electric power companies and overseas public institutions.

The department operates a two-year program: the energy policy and engineering courses in the first year at KINGS, and the thesis/individual project report research program at the student's affiliated institution in the second year. Students can earn a Master of Engineering (ME) or Master of Science (MS) from KINGS.

Not only are projects becoming more complex, but are also developing a digital technologies aspect in their workflow. To help students prepare for such advancements, KINGS offers courses in Big Data, Python programming and Artificial Intelligence/Machine Learning.

Curriculum & Study Areas

Track 1 Energy Policy and Management

- **Study Areas** | Electricity Market and Economics, Financial Management and Accounting, AI Application to Energy Industry, Climate Change and Environmental Policy

Track 2 Net Zero Energy Business

- **Study Areas** | Sustainable Electricity System Planning, Project Valuation and Financing, AI Application to Energy Industry, Net Zero Energy Technology and Business

Common courses for all tracks

- Business Negotiation, Technical Writing for Report, Speech and Debate, Cross Cultural Program

* After taking courses in the study areas stated above for their first year at the KINGS campus, students will research a master's thesis/project report at student's affiliated organization under advice and supervision of a KINGS professor during their second year.

※ The curriculum above is subject to change

Graduation Requirements

■ Degree Type

- Master of Engineering (ME) in Energy Policy and Engineering
- Master of Science (MS) in Energy Policy and Engineering
